WORK EXPERIENCE

Amazon UX/UI Intern

Summer 2021

NASA Suits | Experimental Augmented Reality Team UX/UI Designer

September 2020 – Current

The project is designed with the Microsoft HoloLens 2 to implement a voice interacted user interface allowing for a hands-free astronaut space simulation.

- Designed the user interface for the onboarding, vitals, navigation, and science sampling screens
- Created the design style, iconography recognition, and the task-oriented navigation system

Caterpillar Digital Team | Fleet Software Design UX/UI Designer

September 2020 – November 2020

The Caterpillar fleet management software development was conceptualized and prototyped using Figma and utilized brand standards and design library as part of their World Usability Day contest.

- Led the design team towards creating the software archetype, interface, and prototype
- Presented to the Caterpillar headquarters team
 - My team won the design contest and Caterpillar is basing their software off of our designs

Pekin Insurance | Paperless Billing Agenda Application UX/UI Designer

August 2019 – December 2019

The project was designed for the web to attract new policyholders to Pekin Insurance. This project saved an estimated \$2 million every six months.

- Conformed to WCAG, ADA compliance, and Google Material Standards
- User Tested 31 respondents
- Presented the final prototype & data to UI/UX headquarters team
